

Introducing

PROJECT COLLETTE

Be part of a groundbreaking renewable energy project in West Cumbria

Have your say!

Project Collette will be a groundbreaking, community-owned offshore wind farm; as well as bringing hundreds of jobs to West Cumbria and generating enough electricity to power a million homes, it will create money-making opportunities for our community. Collette embodies Britain's greener, brighter future and you can get involved right now!

Complete our quick 5-minute survey and help shape the future of Project Collette
